

Serial No. 10/607,164

Attorney Docket No. 26B-018

LISTING OF CLAIMS:

1. (Canceled)
2. (Currently amended) The crystalline biodegradable resin composition according to ~~claim 1~~ claim 2, wherein the aliphatic polyester is at least one of polylactic acid and polybutylene succinate.
3. (Currently amended) The crystalline biodegradable resin composition according to ~~claim 1~~ claim 2, wherein the annealing is carried out at or above a glass transition temperature of the aliphatic polyester.
4. (Currently amended) The crystalline biodegradable resin composition according to ~~claim 1~~ claim 2, wherein the annealing is carried out at a temperature higher than a glass transition temperature of the aliphatic polyester by at least 15°C.
5. (Currently amended) The crystalline biodegradable resin composition according to ~~claim 1~~ claim 2, wherein the modified elastomer comprises a modifying group capable of interacting with a carbonyl group.
6. (Original) The crystalline biodegradable resin composition according to claim 5, wherein the modified elastomer is an ethylene elastomer.

Serial No. 10/60 164

Attorney Docket No. 26B-018

7. (Original) The crystalline biodegradable resin composition according to claim 5, wherein the modified elastomer comprises at least one modifying group selected from the group consisting of an epoxy group, an unsaturated organic acid group, and a glycidyl group.

8. (Original) The crystalline biodegradable resin composition according to claim 7, wherein the modified elastomer is an elastomer selected from the group consisting of a styrene elastomer, an acrylic elastomer, a silicone elastomer, a urethane elastomer, and a natural rubber elastomer.

9. (Currently amended) The crystalline biodegradable resin composition according to ~~claim 1~~ claim 3, wherein the modified elastomer comprises a modifying group in an amount of 1 to 40% by weight.

10. (Currently amended) The crystalline biodegradable resin composition according to ~~claim 1~~ claim 3, wherein the composition comprises 100 parts by weight of the aliphatic polyester and 1 to 90 parts by weight of the modified elastomer.

11. (Currently amended) The crystalline biodegradable resin composition according to ~~claim 1~~ claim 3, wherein the composition comprises 100 parts by weight of the aliphatic polyester and 7 to 50 parts by weight of the modified elastomer.

Serial No. 10/60 1164

Attorney Docket No. 26B-018

12. (Canceled)

13. (Currently amended) A crystalline biodegradable resin composition obtained by annealing a composition comprising:

an aliphatic polyester;

a modified elastomer; and

polytetrafluoroethylene. ~~The crystalline biodegradable resin composition according to claim 12, wherein the polytetrafluoroethylene is acrylic-modified.~~

14. (Currently amended) The crystalline biodegradable resin composition according to ~~claim 12~~ claim 13, wherein the composition comprises 100 parts by weight of the aliphatic polyester, 3 to 90 parts by weight of the modified elastomer, and 0.1 to 50 parts by weight of the polytetrafluoroethylene.
